## From the Desk of the

## Managing Trustee

Dear friends,

It's our privilege to share Bhavishya Bharat's eventful journey in the 10<sup>th</sup> year. Its activities have had a significant impact on communities since its inception and this momentum has continued in 2017-2018. We are happy to share our Annual Report which include many insights from the grass roots. During this period Bhavishya Bharat has created tangible impact through community engagement as mandated by the CSR of

Teesta Urja HEP III. Our key partners Teesta Urja Limited, The Hans Foundation and SBI Foundation have continuously provided us support. Furthermore, our comprehensive planning and focus to implement the interventions has significantly transformed the lives of the communities in the project villages of North, South and West Sikkim.

Bhavishya Bharat continuous efforts in the execution of the integrated community development activities have paid handsome dividends, especially interventions such as community access to primary health care, providing quality education to children, building capacities to enhance livelihood opportunities for women and other social development programmes which include creating infrastructure and social assets.

Keeping in view of Sikkim's local farming paradigms and recent recognition as India's first fully organic state, we have promoted and motivated the community to cultivate large cardamom by establishing nurseries to cover all project villages. In addition, the community was trained to prepare and use of organic manure and vermicompost, make eco-friendly dustbins through traditional weaving method and enhance mushroom production by promoting new technique of replacing paddy straw with locally available sawdust and maize husk. Innovative farming practices encouraged group farming to optimize yields and resources as well.

Bhavishya Bharat has the privilege of reaching out to approximate 3,50,000 deprived people for improving their quality of life. Our Mobile Medical Units of THF - Sanjeevani, SBI - Sanjeevani and Teesta Urja Ltd have altogether provided primary health care services to around 10,000 people in the project villages.

Our heartfelt thanks to Teesta Urja Limited, The Hans Foundation, SBI Foundation and the Government of Sikkim for their continuous support and cooperation. It has enabled us to implement our interventions related to integrated community development throughout the year. Our utmost strength is our community; with whom we have continuously engaged to achieve Bhavishya Bharat's vision, mission and values.

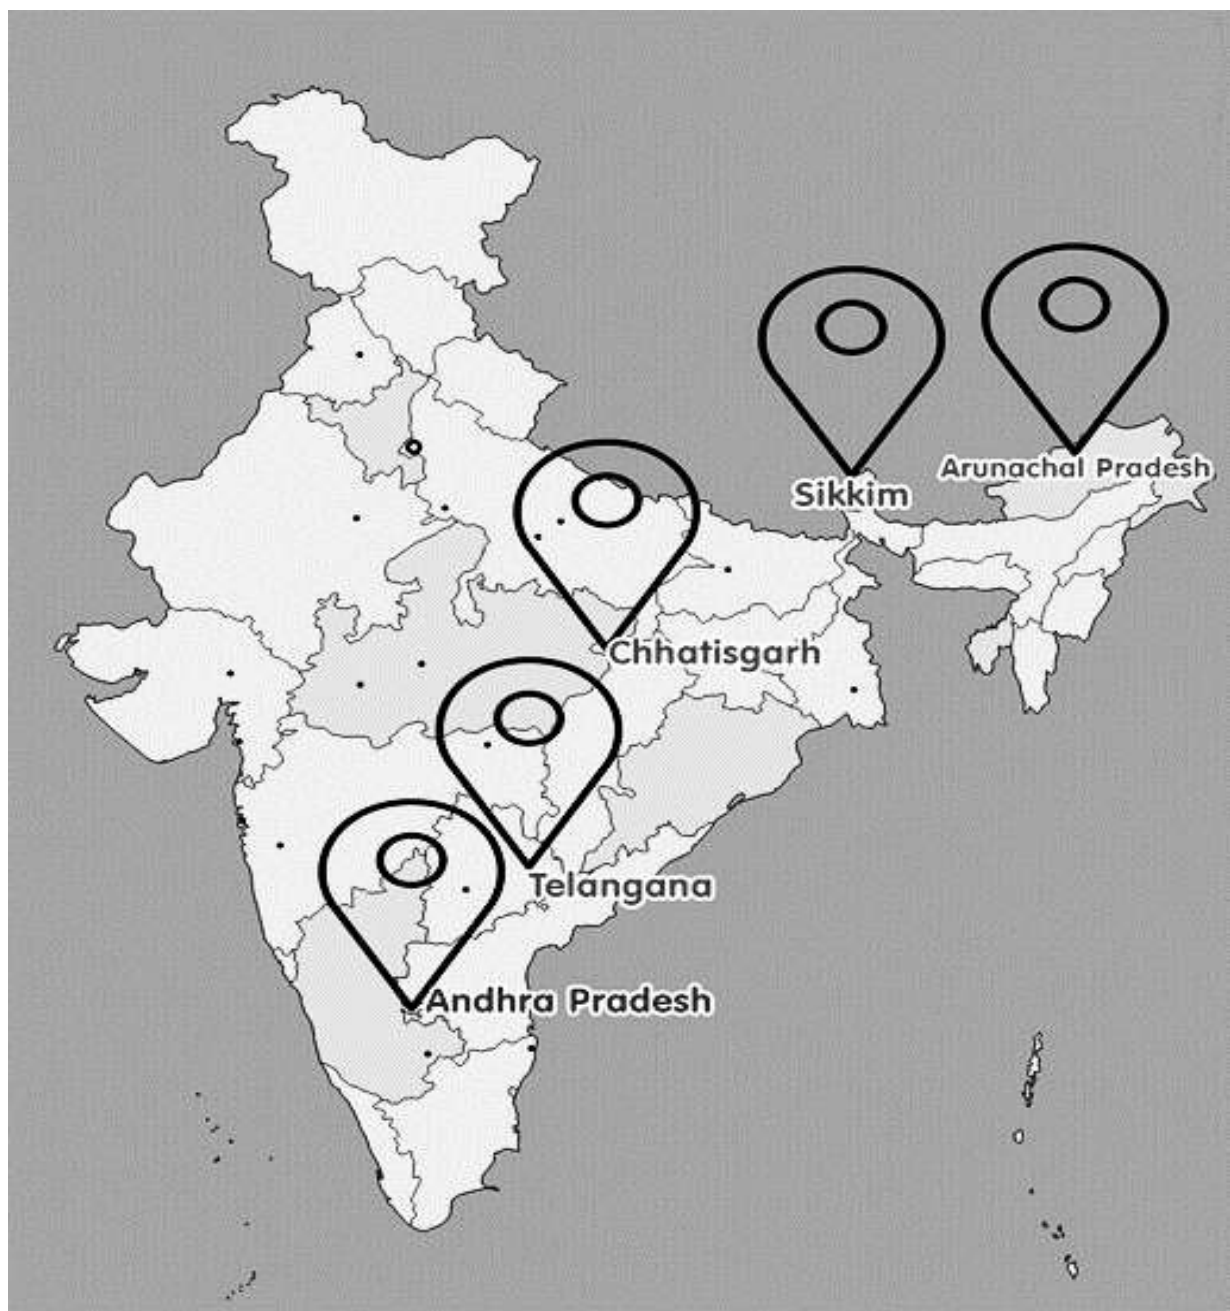

Jai Hind!

## Two mobile medical units launched for rural West Sikkim

**KHUSHHANG LEEWANG**

**GEYZING, January 24:** Minister N.K. Subba flagged off two mobile medical vans, an initiative of Bhavishya Bharat, an NGO, today in a function held at Dentam. The mobile medical units will cater free medical services to the people belonging from rural belts of west Sikkim.

The mobile medical vans having all necessary medical facilities will reach out to the needy people with facilities such as mobile out-patient consultation, pathological tests and provision for medicines free of cost.

It is expected that the initiative started by the NGO will help in improving the health sector of the State. At

the initial part, the NGO has decided to run health camps at 40 villages of Dentam constituency, twice a month.

Bhavishya Bharat, a well-known NGO, has recently opened its branch at Dentam. The NGO, which is actively working for upliftment of social sector in different States of India, had started its Sikkim mission from north Sikkim. The NGO is working in the southern, central and north eastern region of India in the fields of five thematic areas - basic healthcare, education, social infrastructure development (common property resource), sustainable livelihood and disaster risk reduction.

Prashant Chettri, Bhavishya Bharat's State

programme manager informed that the objective of the organization is to make the services related to social sector of the country available in an easy way to the people. He added that the NGO is not-for-profit organisation having expertise in implementing integrated social development programmes and it aims at promoting integrated and inclusive development through social, economic and environmental interventions. "Our organization would be executing different public welfare schemes in west Sikkim for betterment of social sector," he said.

Sudip Sinha, the director of the NGO's main funding agency Hans Foundation, was also present at the function.
